Welcome Address

Dear Parents,

There is no better gift than quality education that parents can give away to their children. Children through quality education can stand taller in the world and occupy a leadership position in life. Discovery endeavors hard that quality education is delivered at an affordable charge.

Discovery, through, "Active Learning", tries to bring out the hidden talent of every child. At Discovery, we have one motto: to make learning simple and joyful. At Discovery School, we try our best that every child develops well emotionally, socially, and academically. In short creativity and learning go together at DSL. I wish all the best to all the newcomers!

Warm regards,

Dear Parents,

It is a sense of pride and great pleasure to be a part of DSL (Discovery School for Learning) family. DSL has its own standard and benchmark, the day since inception. I congratulate to all our DSL family members in their journey of creative learning.

Education does not mean to create book worms. It should teach you to stand with confidence and express your best while you practice the very best.

We have a clear "VISION" which carries to **"bring in a total change in mind, heart and soul of the students, enabling them to excel in their life."**

Shaping young minds is one of the most challenging as well as interesting tasks in the present times.

I am very fortunate to have a great Team Leader and his team members, who are all working hard to get the name of DSL at the top in front of society. I would like to request them to continue with their best efforts consistently and I am confident that we will achieve our goals.

I, wholeheartedly, welcome all the newcomers and wish them happy learning at DSL. Warm regards,

Niraj Kumar
Secretary

Welcome Address

“ A journey of a thousand miles begins with a single step.....

Dear Parents,

I Welcome you all on behalf of Discovery School.

I am really honoured and feel very privileged to be part of this wonderful journey. In a short span of 20 years, Discovery has shown commitment to learning and excellence in all fields. Today, the role of a school is not only to pursue academic excellence, but also to motivate and empower its students to be lifelong learners, critical thinkers and productive members of an ever-changing global society. We provide a conducive atmosphere to our young minds for multifaceted development; children are encouraged to explore their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment. The Talents, Skills and Abilities of each student need to be identified, nurtured and encouraged so that he/she is able to reach greater heights. Discovery School is striving hard to make the best possible efforts to inculcate strong values combining with academics and extra curricular activities in the children. I love leading my Team Whole heartedly.

I wish to all the students for their future endeavours.

With Warm regards,

Sanjiv Kumar Srivastava

About the School: Discovery School For Learning(DSL)

DISCOVERY School was opened in 2004. It started at RPS More Bailey Road, Patna with just 5 students. Later on, the parents' support and disciplined and quality learning helped Discovery School to have more than 700 students with one unit at Sherpur and one more at Gola Road. At Sherpur, your school has acquired more than 80000 sq feet of land to have a full-fledged CBSE school up to the 12th Standard. Parents' support gives great inspiration and strength to the school. Hundreds of students passed out as mature and brilliant students. Discovery School makes a promise that every tomorrow is a better day than yesterday it was.

PARTICIPATIVE LEARNING:

Discovery School For Learning prepares its students for tomorrow. It is based on a Unique Participative Learning Technique. It promotes Learning rather than Teaching. It creates inquisitiveness and interest. Learning sessions are interactive. They enjoy learning and participating actively in the learning process. They start believing in themselves. Your children's success depends on what you decide today.

DISCOVERY SCHOOL, despite having limited resources, dreams high and works hard to give its pupils a GLOBAL outlook. This is reflected by our emblem associated with a "GLOBE"

Academic Curriculum

"Those who educate children well are more to be honoured than parents, for these only gave life, those the art of living" By Aristotle. This tells about the influence of the teachers on students' life. Knowledge alone can help a student to achieve a position. But quality Teaching gives respect and recognition to students and help them emerge as Leaders.

Inside the classroom:

We practise learning rather than mere teaching. Learning with fun makes learning simple and enjoyable beyond the confines of a classroom. We make sure that the children at DSL enjoy every inch of their stay at the school. They feel good and enjoy doing good.

- * We have a limited number of students in every class so that proper attention and focus goes to each child while learning goes on. Special focus is
- * given to writing and reading skills and relates to their learning in their daily life. Appreciation is
- * another tool that encourages learning at a faster pace. We employ unique easy teaching methods
- * that make learning fun-filled and enjoyable.

- * Great focus is given to picturization.
- * Teachers adopt the role of mentor and students are impelled to learn by doing themselves.
- * A friendly and homely environment is there in the classroom. Audio visual aids for storytelling, better
- * elocution, and word meanings are used that make learning more interactive. Some pictures tell about the things that happen inside the classroom.
